

Early Neoplasias of the GIT: Endoscopic Diagnosis and Therapeutic Decisions

<u>TABLE of CONTENTS</u>	<u>Page No.</u>
A General Principles of Endoscopy for Early Gastrointestinal Neoplasias	01
1. Endoscopic Detection and Analysis of Mucosal Neoplastic Lesions: Enhanced Imaging and Tumor Morphology Frieder Berr, Thierry Ponchon, Toshio Uraoka	03
2. Histopathology of Early Mucosal Neoplasias: Morphologic Carcinogenesis in the GI Tract Daniel Neureiter, Tobias Kiesslich	25
3. Principles of Endoscopic Resection: Diagnostic and Curative Resection of Mucosal Neoplasias Tsuneo Oyama, Naohisa Yahagi	47
4. Subepithelial Gastrointestinal Tumors: Diagnosis and Indications for Resection Frieder Berr, Juergen Hochberger, Tsuneo Oyama	63
5. High-resolution Endoscopic Ultrasound: Clinical T-Staging of Superficial and Subepithelial Gastrointestinal Neoplasias Hans Seifert, Daisuke Kikuchi, Naohisa Yahagi	79
6. Endoscopic Screening and Surveillance: Indications and Standards Thierry Ponchon, Frieder Berr, Tsuneo Oyama	101
B Organ-Specific Endoscopic Analysis of Early Neoplasias	
7. Squamous Cell-Lined Esophagus and Hypopharynx: Mucosal Neoplasias Tsuneo Oyama	121
8. Columnar Epithelium-Lined (Barrett's) Esophagus: Mucosal Neoplasias Pierre Deprez, Takashi Toyonaga	149
9. Stomach: Mucosal Neoplasias Tsuneo Oyama	175
10. Duodenum and Small Bowel: Mucosal Neoplasias Motohiko Kato, Naohisa Yahagi, Thierry Ponchon	223
11. Colorectum: Mucosal Neoplasias Andrej Wagner, Tadateru Maehata, Frieder Berr, Naohisa Yahagi	241
12. Chronic Inflammatory Bowel Disease in Remission: Mucosal Neoplasias Naohisa Yahagi, Tadateru Maehata, Atsushi Nakayama	293
13. APPENDIX: Standard Terminology	309
